## Brighter possibilities

The Source Four LED Series 2 luminaire is the result of extensive experimentation with the x7 Color System™ to get the brightest light in the colors you use most. Colors like rose, canary yellow, sky blue and amber are up to three hundred percent brighter than those from the original Source Four LED. The Source Four LED Series 2 is so bright, so adaptable that it can be used in any position in any installation, even for long throws and front of house.
